AN ISO 9001:2008 Certified Company by TUV Nord India for "Design, Manufacture and Supply of Broaches & Spline Gauges and Re-sharpening of Broaches"

Sub: Introduction to the Khemka Group companies

Dear Sir/Madam,

We are a part of the Khemka Group which consists of the following companies.

- Broach Technology (India) Pvt. Ltd. (An Export Oriented ISO 9001:2008 company)
- Khemka Broach & Spline Gauges
- Khemka Spline Gauges Pvt. Ltd.

The group was founded in 1982 by Mr. P. K. Khemka. Mr. Khemka was extensively trained at Oswald Forst GmbH, Germany for design and manufacturing of Broaches and at Frenco International UK (formerly W. Frost Engineers) in design and manufacturing of Spline Gauges/Mandrels/Master Gears. Before starting the companies, Mr. Khemka was working with M/S Dagger Forst Tools Ltd. for 16 years and was working as Vice President.

We have around 30 years of experience in the design, manufacture and export of all types of Broaches, Spline Gauges and other Spline Toolings. Mr. P. K. Khemka himself has more than 50 years of experience in this field.

Today, Mr. P. K. Khemka along with his 2 Sons Mr. Aditya P. Khemka and Mr. Neeraj P. Khemka are managing the businesses. All inquiries are personally handled by one of the directors so as to make the most optimum and cost effective design, delivering maximum value to the customer. We have one of the most advanced manufacturing facilities with in-house heat treatment facilities, CNC machines and highly skilled workmen. For the broach tool production we use materials produced in EU. Following are our capabilities:

- Broach design experience of more than 50 years and ability to design and manufacture any type of special round and flat tools.
- In house heat treatment for Broaches up to $\varnothing 150\text{mm}$ and length up to 2100mm (83").
- State of the Art 6-Axis CNC Spline Grinding Machine capable of manufacturing highly accurate Straight and Helical tools and Re-sharpening of annular and spiral gullets up to 3500mm (138") long (up to $\varnothing 400\text{mm}$).

A large percentage of our production is exported to countries like Germany, France, UK, Switzerland, Belgium, Sweden, Denmark, Holland, Czech Republic, Slovakia, Poland, Thailand, Malaysia, Indonesia, etc. and we have time and again proved our quality and reliability in very competitive overseas markets.

Our sales representative for the Central Europe is company PROTRN, s.r.o. Besides the sale of our tooling, they have also their own broaching and broach tool re-sharpening facility.
